## AYA ACCENT LAMP

The collection & the lamp are based on Adinkra symbols of the Ashanti in West Africa. The Adinkra symbols hail from the Ashanti and Akan kingdoms of West Africa, which today span from Senegal to Nigeria. Each symbol of the Adinkra represents a collection of related concepts around an ideal. To wear, use, or be given an Adinkra is to call on and/or embody those ideals in life and practice. The lamp is based on the symbol of the fern which symbolizes endurance & resourcefulness.

The Aya table lamp is made from powder-coated steel and a solid ash timber tray & brass coated lamp holder.

## MANGBETU WALL SCONCE

This wall sconce is a play on scale & negative space & arched shapes, the light forms part of the 2018 African Crowns Collection, inspired by the shapes of the traditional Fulani hairstyles. The braided & arched hairstyles of the Fula women were seen as a symbol of fertility and beauty and it is these arches that are referenced in the organic rounded forms of this wall light.

The Mangbetu wall sconce is made from powder-coated steel woven with a braided polyporp cord. A non-woven option is also available.

## MUDZIIRA OUTDOOR WALL SCONCE

The Mudziira outdoor wall sconce is part of the Homecoming Collection launched in 2020/21. Like all pieces in this collection, its name is inspired by words that define home and evoke feelings of home in various indigenous languages from the continent. "Mudziira," a Shona word meaning warmth, aptly describes this fixture.

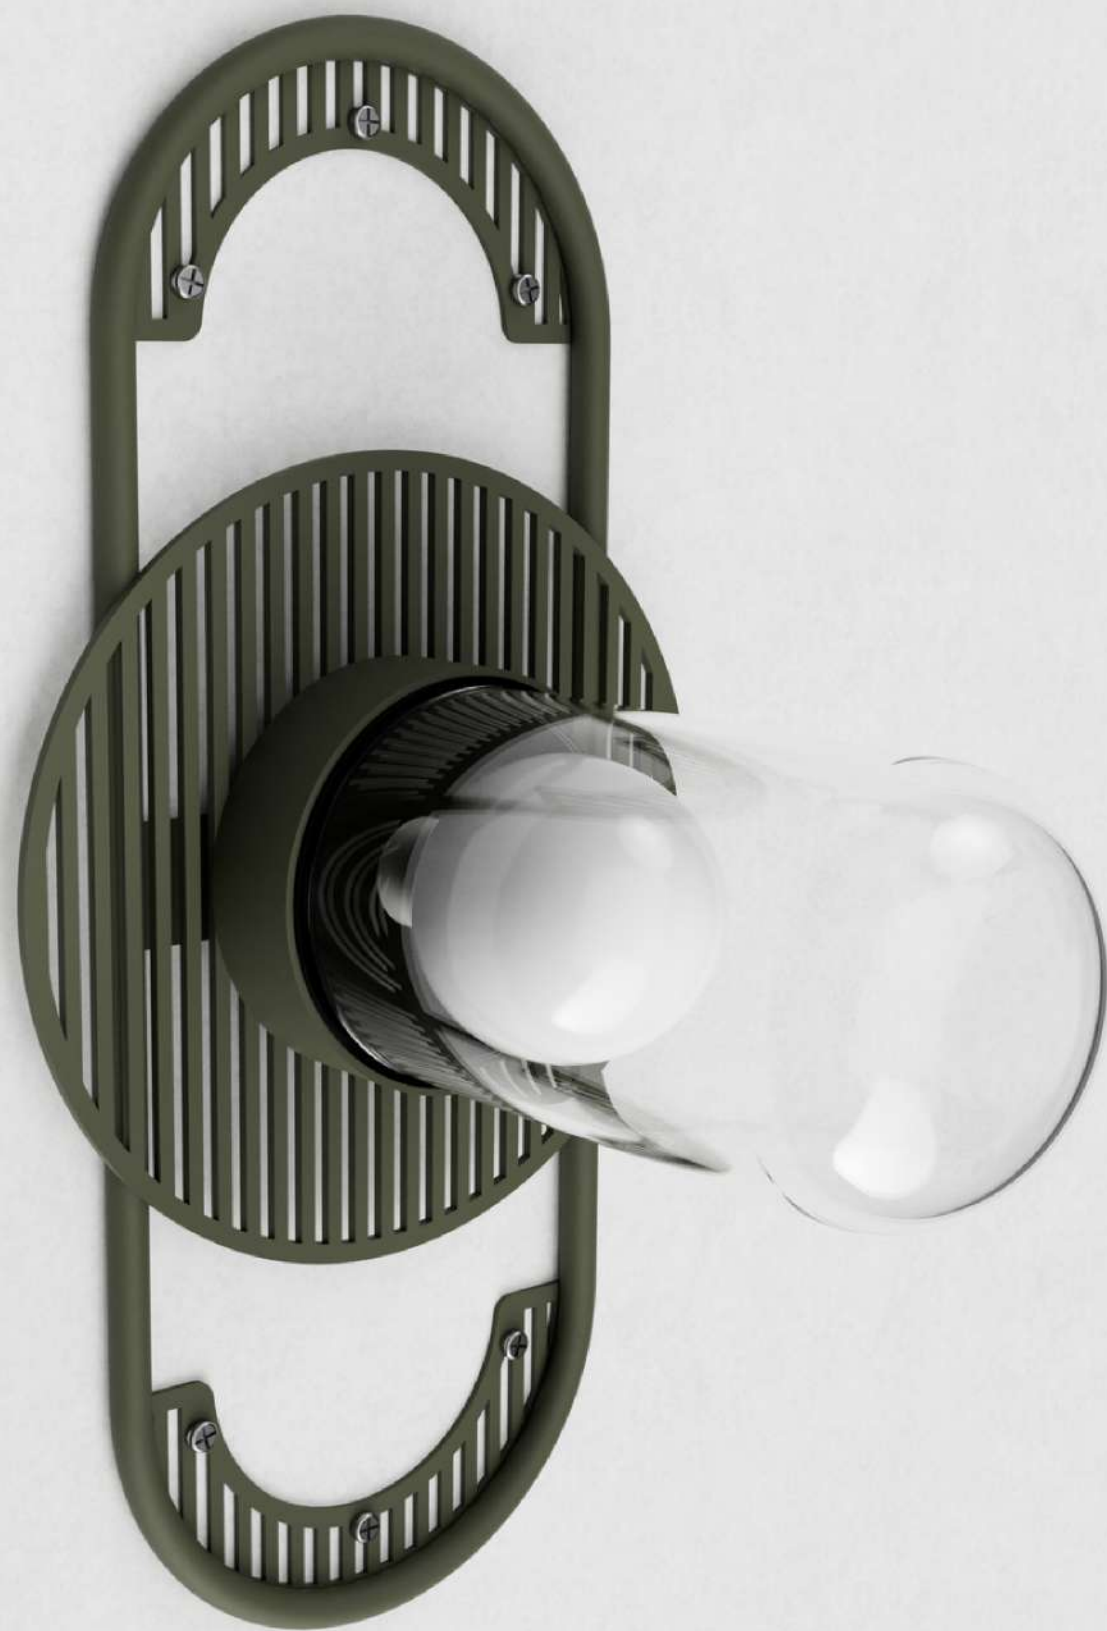

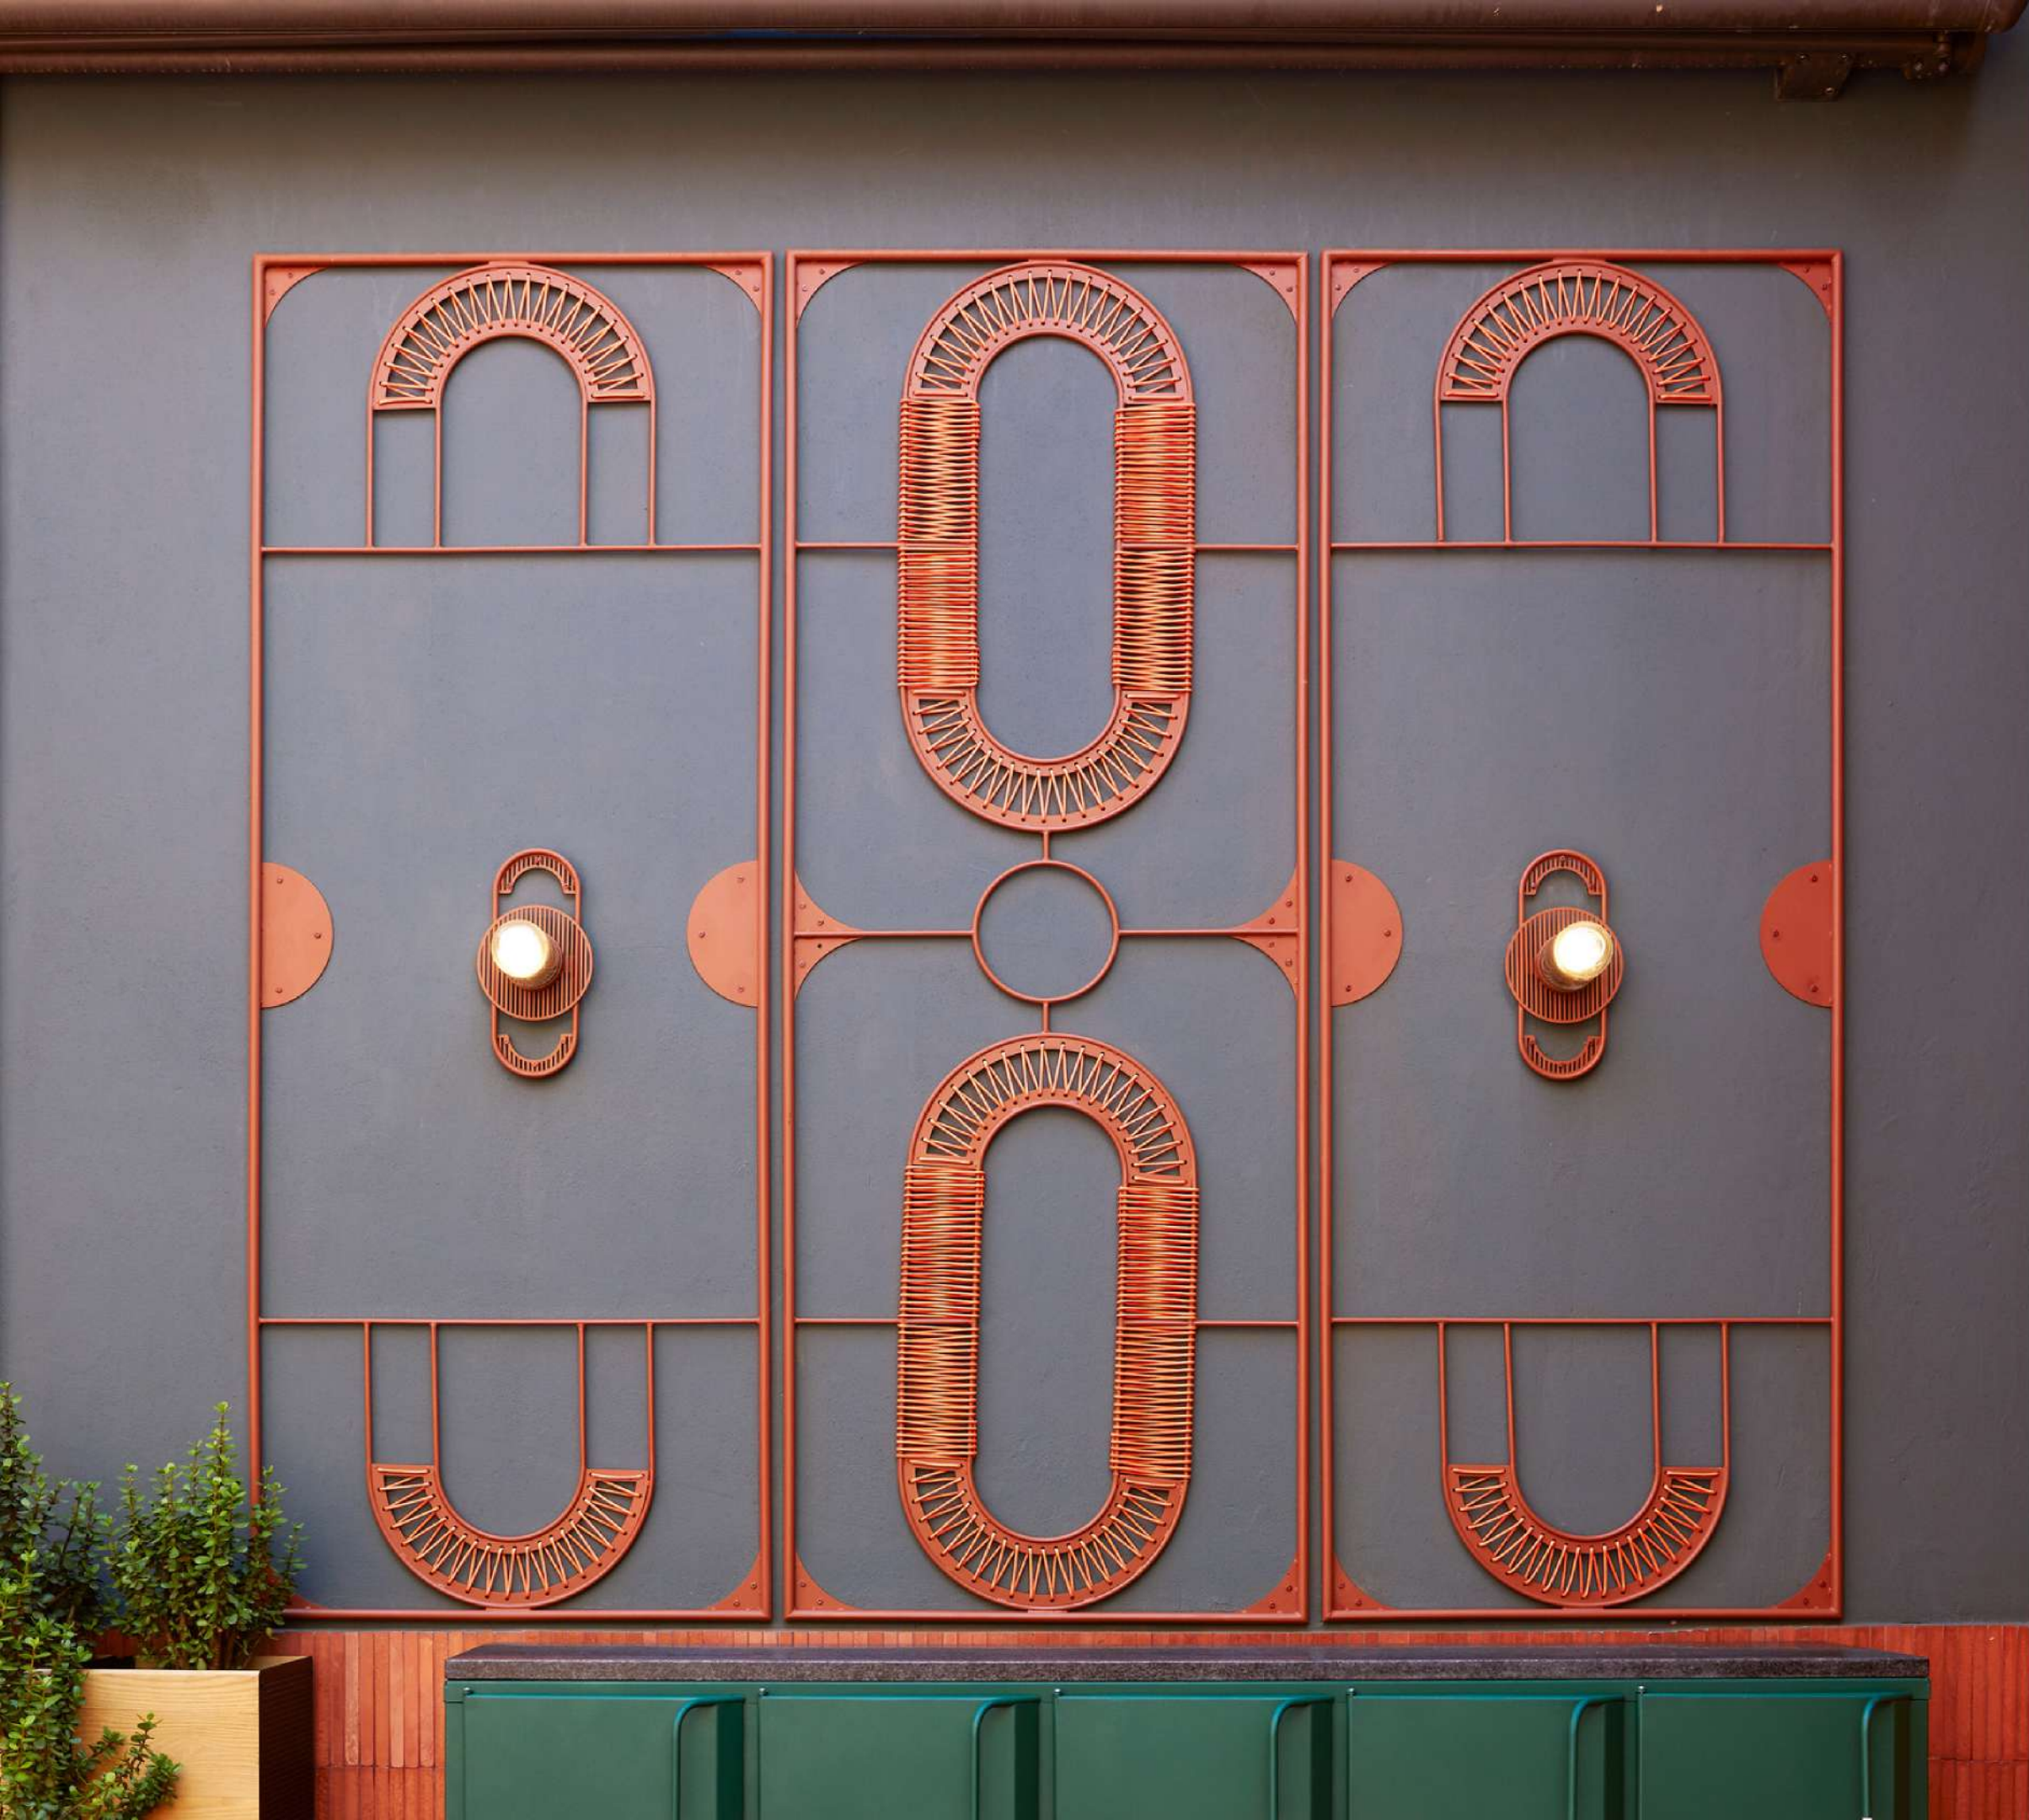

The Mudziira outdoor wall sconce is crafted from powder-coated steel and features a water-tight glass jar. The repeated vertical lines of this sconce add nuanced shapeliness and a modernist touch to its simple form.
